THE NAME

Why Naveya.

Every school is, in its oldest sense, a vessel, the thing that gathers a generation and carries it across. Its teachers, administrators and staff are the crew. Naveya is what carries the people who run it.

नव **nava** *new*

A genuine fresh start, an HR and payroll platform built from the classroom outward, not a corporate tool bent to fit a school.

नौ **nāv** *vessel · to navigate*

The instrument at the helm, steering leave, pay, documents and people safely through the rhythm of the academic year.

Hold the two together and the name almost speaks a sentence, ***a new vessel that carries a school's people forward.***

THE PROBLEM

Schools run on staff. Their software forgets that.

The leading HR platforms are built for corporate offices, not classrooms, so schools are forced to adapt to them. Three mismatches surface on day one:

A corporate calendar

Leave and payroll run Jan-Dec, not by academic session, term and vacation.

Office-staff logic

Teachers, guest faculty, ayahs and transport staff forced into one office mould.

A monthly salary

No concept of a per-lecture honorarium paid alongside a regular salary.

THE COMPETITIVE GAP

Five things not one competitor does.

The leading platforms are all horizontal, corporate HRMS with no education edition. The empty column down the middle of every feature matrix is the product thesis:

Academic-calendar leave

Leave tied to session, term and vacation, not Jan-Dec.

Vacation-staff logic

Teachers get vacation in lieu of EL; 12-month staff accrue it.

Multi-scale payroll

Salaried staff and per-lecture faculty paid in one run.

Substitute arrangement

Auto-arrange cover from the live timetable, feed honorarium to pay.

Period-level attendance

Present for 4 of 6 periods, a full-day swipe can't see it.

OUR DIFFERENTIATION

Four capabilities, structural to schools.

Academic-calendar leave

Leave cycles follow the academic session, term and vacation, never the corporate year.

Vacation-staff logic

Teachers get vacation in lieu of earned leave; office staff accrue it. It reshapes leave and pay.

Multi-scale payroll

Salaried staff and per-lecture faculty run in one payroll, each by its own logic.

Substitute arrangement

Cover is arranged from the live timetable, honorarium into pay, on the near-term roadmap.

HEAD TO HEAD

How we compare.

Where the leading corporate HR tools stop, and where Naveya keeps going.

THE PLATFORM

One suite. Everything a school runs on.

Every part shares a single staff record, one login and one audit trail, people and payroll, hiring, and documents, in one place:

THE CORE

People & Payroll

Staff records, academic-calendar leave, attendance, multi-scale payroll and full India statutory compliance.

JOB PORTAL + ATS

Hiring

A hiring portal and applicant-tracking system with education-specific qualification screening.

DIGITAL VAULT

Documents

A DigiLocker-style document vault, HR-owned, verified, encrypted, with expiry alerts.

All included from day one, one platform, not a stack of tools stitched together.

SIGNATURE FEATURE · 01

Leave that runs on the academic year.

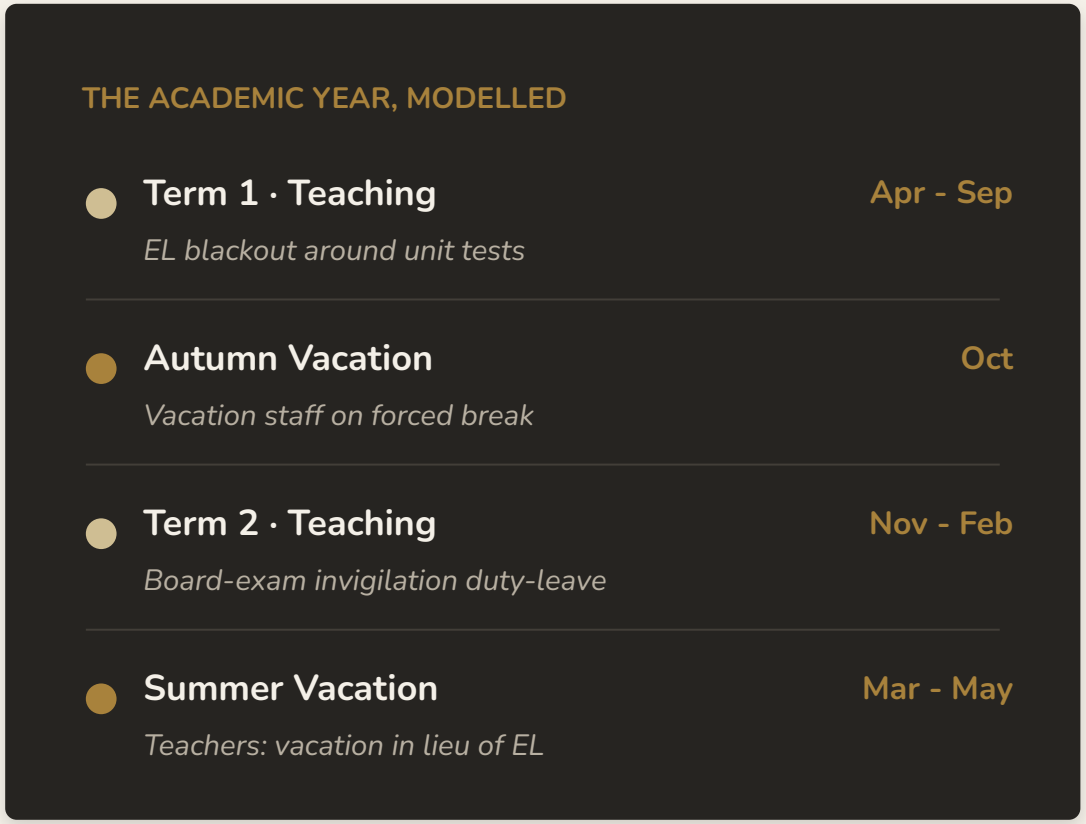

Leave is governed by the academic session, term, vacation and exam structure, so a teacher's entitlement, accrual and pay behave the way a school actually operates.

Session-based cycle
Apr–Mar leave cycle with term calendars.

Vacation-staff rule
Teachers get vacation in lieu of earned leave.

Exam & admission blackouts
Restricted-leave windows around exams.

Half-day granularity
Half-day application, straight into paid-days.

SIGNATURE FEATURE · 02

One payroll run. Several pay logics.

Regular salaried staff and per-lecture guest faculty are paid in the same run, each by its own logic, statutorily correct throughout. No competitor does this in one entity.

CTC · monthly

Salaried staff

Configurable CTC structures with the Labour-Code 50%-allowance rule enforced.

Honorarium

Per-lecture faculty

Visiting faculty paid per lecture, period or hour, with monthly caps.

Multi-group

Parallel pay groups

Aided, self-financed and contract staff, side by side in one entity.

One statutory-correct run | PF · ESI · PT · TDS per pay group, single-click with variance detection, then bank file + payslips.

AI IN NAVEYA

Intelligence, built in.

A school office drowns in documents, queries and checks. Naveya's AI takes on the busy work, on your data, within your access controls.

Document intelligence

Reads degrees, TET, licences and IDs, auto-fills fields and detects expiry dates.

Smart candidate screening

Ranks applicants against the role and mandated qualifications in seconds.

Natural-language HR assistant

Ask in plain language, leave balance, contract dates, renewals, answered instantly.

Payroll & compliance checks

Flags salary, LOP and statutory outliers before a run, and explains changes.

THE SUITE · CORE HR

A system of record shaped for schools.

Education staff taxonomy

PRT/TGT/PGT, guest faculty, NTT, Class-IV, transport, hostel.

Group → Trust → Campus

Multi-branch school groups as a first-class hierarchy.

Digital service book

Degrees, B.Ed, TET/CTET/NET, experience & police verification.

HR-controlled records

HR owns documents; staff update only via a verified request.

Document-expiry alerts

Licences, medical fitness, contracts and visas — before they lapse.

Lifecycle tracking

Confirmation, transfer, promotion and contract auto-expiry.

THE SUITE · ATTENDANCE & LEAVE

Tamper-proof capture, academic-year leave.

Multi-mode attendance

Biometric plus mobile punch with geo-fencing and selfie capture.

Shifts, rosters & half-day

Fixed, rotating and split shifts, with half-day granularity.

Auto paid-days

Attendance, leave, holidays and offs reconciled into payroll.

Academic-year leave

Session cycle with vacation-staff logic and exam blackouts.

Education leave types

Duty leave, invigilation, study leave, sabbatical, maternity.

Leave → LOP linkage

Unpaid leave flows straight into payroll as loss-of-pay.

THE SUITE · PAYROLL & COMPLIANCE

Compliance-grade Indian payroll.

Multi-scale payroll

Parallel pay groups plus a capped per-lecture honorarium engine.

Full India statutory

PF, ESI, PT, TDS (both regimes), gratuity, bonus, LWF, maternity.

Signed filings

ECR, Form 24Q, Form 16 (A & B) and 12BA, digitally signed.

Single-click run

AI anomaly checks, then NEFT bank file and payslips.

Full & Final settlement

Leave encashment, gratuity, recoveries and TDS true-up on exit.

Versioned statutory config

Every rate and ceiling as versioned data, pinned per run.

THE SUITE · HIRING

A job portal & ATS, built for schools.

Hire teaching and admin staff end-to-end, with seasonal surges and mandated-qualification screening handled natively. The full pipeline, in the first release:

Requisition → **Job Posting** → **Shortlist** → **Interview** → **Offer** → **Convert**

AI qualification screening

Ranks applicants and checks TET/CTET/NET/B.Ed at shortlist.

Public career portal

Job posting and syndication, straight into the pipeline.

Candidate → employee

Acceptance auto-creates the employee, documents and all.

Background verification

Police / BGV tracking as a child-safety mandate.

A DigiLocker for your institution.

Every staff document, degrees, B.Ed, TET, police verification, licences, in one HR-owned, encrypted vault. Staff never edit records directly; every change is verified.

AI-read vault
Documents auto-read on upload; fields & expiry dates extracted.

Verification status
Every document pending / verified / rejected, with full audit.

Expiry alerts
Licences, medical fitness, contracts and visas watched automatically.

Encrypted & access-scoped
At-rest encryption with role-scoped, child-safety-aware access.

THE CONTROLLED UPDATE CHANNEL

1. **HR raises a request**
   The only way an employee can supply a document.
2. **Employee uploads**
   Response lands as pending — the live record is untouched.
3. **HR verifies**
   Approved file becomes current; the old one is retained.

THE SUITE · MOBILE & PLATFORM

Phone-first, for a desk-less workforce.

Mobile-first ESS

Leave, attendance, payslips and Form 16, native iOS & Android.

Seasonal onboarding

Bulk academic-year contracts with auto-expiry and renewal.

Manager self-service

Approvals and team views from the same mobile app.

Role-scoped access

Group, campus and department scoping with PII controls.

Multi-channel alerts

In-app, push, SMS and email for approvals and due dates.

Immutable audit

Every payroll run, filing and change captured and traceable.

TRUST & SECURITY

Built for sensitive school data.

Tenant isolation

Row-level security, one institution's data never crosses to another.

Encryption throughout

At rest and in transit; payslips & Form 16 protected.

Field-level PII controls

Bank, PAN, Aadhaar and salary gated separately from record access.

DPDP-aligned

Consent, retention windows, and data-access & correction requests.

Child-safety controls

Background-verification records access-restricted and fully audited.

On-premise option

Single-tenant deployment for data-residency requirements.

PRICING

Two plans, priced by staff size.

Per user / month. Annual contracts, billed quarterly, GST extra.

Basic

Payroll, HR & compliance

Up to 49 users	₹99
50 - 200 users	₹89

per user / month

- Core HR & staff records
- Attendance + academic leave
- Multi-scale payroll & statutory
- Full & Final + mobile ESS
